University of Houston Parking and Transportation Services Faculty/Staff Gated Parking Lot Conversion

Presentation to College and Division Administrators

September 14, 2017

Project Overview

Convert all F/S gated parking lots from Stanley Securities B.A.S.I.S. access control to T2 Systems PRACS access control

Project scheduled to start October 16, 2017. Lot 1B will be the first location converted and we will proceed counter clockwise around campus until complete.

Lot 18B will not be converted due to future Garage 5 construction.

Each parking lot will take approximately 4 to 5 days to complete installation and testing

Personnel will be on site to monitor traffic

Once completed parkers will be required to swipe in and out of the facility

E-mails will be sent to each assigned parker 1 week before work begins

Benefits

- Only one parking credential required
- Hands free access via Toll Tags
- Real-time occupancy counts will result in improved parker waitlist management
- Sequential swiping in and out of the parking lot will reduce improper use
- Intercoms to Parking Call Center to assist with problems

Questions
