

Growing Up in a Bilingual Context

Did you grow up in a Spanish-English bilingual context?

Researchers at the University of Houston are trying to learn more about:

- Factors that impact language proficiency in college students who grew up exposed to **Spanish** and **English**

We invite you to participate in this study if you are **a college student** that:

- Grew up exposed to Spanish and English
- Have attended Elementary school and higher within the United States
- Are at least 18 years of age

What is involved?

We will invite you to participate in 2 activities for approximately 60 minutes total:

- First, an **online survey** will inquire about language development and proficiency and general background information related to language which will take approximately 15 minutes and will be administered through a link to Google Forms via email.
- Second, an **in-person interview** will be set up after completion of the online survey at an on-campus location (CRS building West Wing) that will take approximately 45 minutes.

Participants who complete both surveys will receive a **\$20 Amazon gift card**.
