**SENIOR HIGH SCHOOL  
INFORMATION BOOKLET**

# Senior High School Information Booklet

Senior high school choices are important but many students choose schools they do not know much about and are then dissatisfied with their admissions outcomes. Making careful choices is one of the best ways to have a good senior high school experience.

## How it works:

You will be selecting four choices from second cycle schools of different options. Each option contains a different set of schools.

### OPTIONS:

**Options 1, 2 & 3:** Public Senior High Schools

**Option 4:** Public Technical/Vocational Institutions

**Option 5:** Private Senior High Schools + Private Technical/Vocational Institutions

## You must:

1. Choose four different schools.
2. Select a programme and an accommodation for each choice.
3. Remember that your choices:
  - Can include up to four Option 1 schools
  - Can include up to four Option 4 or 5 schools
  - Can include up to two Option 2 schools
  - Can include up to one Option 3 school

## How to make good senior high school choices:

### 1. What is important to you and your family?

- **Staying close to home?** Only select schools in your region or district. If you want to stay within 16km of your JHS, use the CATCHMENT AREA OPTION.
- **Single sex or mixed?** Some schools are mixed and some are girls or boys only.
- **Boarding or day?** Some schools offer both options but some offer only one.
- **Programme type?** Be sure to choose schools that offer your programme of interest.

### 2. What was your raw BECE score (out of 600) on your mock exams?

- Use the worksheet in this booklet to calculate it.
- Be sure to choose at least one school where you have a good chance of being admitted.

### 3. Pick schools you would actually like to attend!

- You can only list four choices, and most students do not get placed in their first choice, so every choice is important.

### 4. List your choices in order of preference.

# GUIDE

Guidance and Information for Improved  
Decisions in Education

## Additional advice:

The following advice is NOT mandatory but can help you make better choices.

### 1. Think about selecting a variety of choices in case you perform much better or much worse than you did on your mock exam.

- One choice should have a low score close to or above your mock score – a **reach** choice.
- One choice should have an average score close to your mock score – a **likely** choice.
- One choice should have an average score below your mock score – a **safety** choice.

### 2. Organize your options in terms of BECE score competitiveness.

Listing a very competitive school (with high BECE scores) after a less competitive school (with low BECE scores) is unwise. This is because if you get a low score then you will miss both choices. It is better to put a less competitive choice lower down on your list.

## Catchment Area Option

If all of your choices are within 16km of your junior high school, choose the 30% catchment area option. 30% of seats in each senior high school are **reserved** for students whose junior high school is within 16km of the school. **Using this option increases your chances of admissions but limits your choices.**

## Senior High School Fees

- The government-approved fees for government senior high schools are:
  - Form 1 fees for term 1: 405.50 for day and 724.50 for boarding students.
  - Continuing fees per term: 73.00 for day and 385.00 for boarding students.
- Some government schools charge additional fees.
- Private schools can charge any reasonable amount.

## For more information

You can call or text a GUIIDE counselor with any questions on: 055 361 7235.

# Raw BECE Scores

BECE placement is based on your raw BECE score and your four selected senior high school choices. Your raw BECE score combines your total percentage scores in the **four core subjects** and your **next two best subjects**.

Your raw BECE score (which you can calculate below), along with your stated school choices will determine your senior high school admissions. Students with the highest scores are admitted first, and other students are admitted as space allows. This information booklet contains the average scores and lowest scores for each senior high school to give you an idea of how likely you are to be admitted to a given school. Compare these scores to your mock raw BECE score to determine whether each school is a good option for you.

**In 2015, the highest raw score in the country was: 502 out of 600**

## Calculate Your Raw Score:

Now you can calculate your raw score based on your mock BECE exams.

**On your most recent mock BECE exam, what score did you receive in the core subjects?**

Percentage in Mathematics	_____ %
Percentage in English	_____ %
Percentage in Social Studies	_____ %
Percentage in Integrated Science	_____ %

**What score did you receive in your two next best subjects?**

First best subject	_____	_____ %
Second best subject	_____	_____ %

Add up the six percentages to calculate your mock raw BECE score. As you take more mock exams, you can update your mock score.

**Mock Raw Score** \_\_\_\_\_ / 600

Remember that the highest score in the country in 2015 was 502. If your score is higher than 502, please check your addition or recollection of previous scores to be sure.

# How to use this booklet:

This booklet contains information on all senior high schools and technical/vocational institutes in **Ashanti region**, to inform you about your local options. You are free to select other schools outside this region if you would like.

Code	School Name	District	Gender	Boarding	Programme	BECE Score of Admitted Students		WASSCE Performance		Option
						Average	Low	Pass Rate	Candidates	
XXXXX	EXAMPLE Senior High/Technical School (nickname)	KUMASI METRO Bantama-Kumasi	Mixed	Day / Boarding	Agriculture Business General Arts General Science Home Economics Technical Visual Arts	339 368 391 403 376 356 365	309 345 338 379 311 328 349	72%	739	1

## A NOTE ON BECE SCORES

These scores from students admitted in the last three years give you a rough guide of how likely you are to be admitted. **If your BECE score is far below the low score**, you have a small chance. **If your score is close to or above the average**, you have a high chance. These **scores change every year**, so even getting a BECE score above last year's scores cannot guarantee your admission, but gives a guide of what to expect.

WASSCE Performance is also based on candidates from the last three years (2013 to 2015).
