

Global Career Readiness

Global Career Readiness is the foundational ability to **integrate global competence** into one's education and career pathway in order to effectively navigate, contribute, and lead **in culturally diverse and interconnected professional environments**.

global learning
global competence + critical reflection
& articulation → **Global Career
Readiness**

Why Global Competence?

Global Competence is the **attitudes, knowledge, skills, & action** needed to **engage effectively** and **contribute meaningfully** in our interconnected world.

Top skills gained via global engagement:

-  critical thinking
-  adaptability
-  cross-cultural communication
-  awareness, confidence, & initiative

Articulating the Value of Global Engagement

Students should **reflect** on their global engagement and **consider how** these developmental experiences **contribute to their future career goals**

- Tell your story to **identify the impacts**
- **Understand GC** and why it matters
- **Reflect** in different ways to enhance growth
- **Develop** your experiences into skills
- **Practice** your global elevator pitch
- Identify **global skills** you need for your career
- **Draw connections** between your global engagement and your career goals
- **Take initiative** to include your experience

75% of employers are more likely to consider hiring graduates who worked with people from diverse backgrounds or cultures
