Crash Crash Crash Crash Tap Choke Crash

f

Crash - Regular "AV" Style crash. These are normally used as impacts with the full battery.

Tap Choke - Essentially a "Secco" or EXTREMELY SHORT Crash Choke that normally accompanies isolated Rim Shots.

Sizzle - Great for longer sustained sounds. Goes great with Buzz Roll textures in the battery, or the starts of phrases when the Drumline is in a more supportive role.

Hi-Hats - Turned over, stacked cymbals that "chick" together as a time-keeping tool. These almost always have a "felt more than heard" kind of vibe.
