

Spring 2019 Workshop: Deep Learning and Data Mining

Organizer:

Prof. Robert Azencott
(UH Mathematics)
razencot@math.uh.edu

Time:

Every Friday, 9:30—10:30AM;
(starting Friday, February 1, 2019)

Location: 302 AH

The first weeks of the seminar will focus on:

TensorFlow - (Google tools for Deep Learning)

TensorFlow lectures will be presented by Aryan Mobiny (PhD student, UH ECE) with collaborators: Jahandar Jahanipour & Mohammad Najarian (PhD students, UH IE & UH EE)

The last weeks of the seminar will focus on:

"Deep Learning and Biomedical Data"

The invited lecturers (TBA) will be selected by a Scientific Committee representing:
UH Math, UH Biology, UH Comp Sci, M.D. Anderson Syst Bio.

namely:

Robert Azencott, Demetrio Labate, Andreas Mang, Richard Meisel, Claudia Neuhauser,
Pralhad Ram, Shishir Shah

This seminar is open to all UH graduate students and faculty.
